

Niyati Jain

1-732-522-6470 | niyatijain2104@gmail.com | [LinkedIn](#) | [GitHub](#) | New Brunswick, NJ

PROFILE:

Recent MS in Computer Science graduate with **8 internships** spanning **3+ years'** experience in diverse industries and numerous projects. Adept at strategic thinking, communication and leadership skills as well as presenting complex ideas in simple terms.

WORK EXPERIENCE:

Sayari, Data Engineer

Jan 2025 – Present | Remote

- Crawling public records using **Scrapy** (Python) and **Kubernetes** to add new data sources for the flagship product Sayari Graph and parsing them to build knowledge graphs supporting 1.1 B entities and 100 M relationships.
- Automating bulk data workflows using Python, **Airflow DAGs** and **Spark (Scala)** leveraging **GCP** for storage and processing.
- Engaged in OOP practices and test-driven development–by writing unit tests, using mocking and dependency injection.

Educational Testing Services (ETS), Data Scientist Intern

Jun 2023 – Aug 2023 | Princeton, NJ, USA

- Worked on Keystroke Biometric Identification which aims to detect fraudulent profiles of test takers by comparing user profiles generated through the typing patterns of 2 consecutive characters or digraphs using **Python**.
- Fine-tuned TypeNet, using a Triplet Siamese Model with RNN models comprising of LSTM layers to generate user embeddings. These embeddings were classified using a Fully Connected Neural Network achieving a 7.67% EER.
- Coordinated with DevOps to deploy the model on **AWS** by optimizing data flow for seamless integration to EC2 instances.
- Adhered to **Agile** software development project methodologies through the project lifecycle.

PhonePe, Business Analyst Intern

Jan 2022 – Jun 2022 | Bangalore, India

- Coordinated with stakeholders and conducted 50+ ad-hoc analyses for 'Health Insurance' products including A/B Testing on medical claims and finance data utilizing **Hive, SQL, Excel, LUCY** and **Atlassian JIRA**.
- **Orchestrated ETL pipelines using Apache Airflow DAGs** and maintained reports and dashboard on **Tableau** to track KPIs.
- Implemented a Time-Series Forecasting Model using SARIMAX under the Head of Analytics to correlate Google App Ratings with outage transactions on the PhonePe app, achieving 0.82 RMSE score and addressing seasonal fluctuations.

TECHNICAL SKILLS:

Big Data/Frameworks: Hadoop, Spark, Airflow, Kafka, Django, Docker, Kubernetes, React, Node JS, .NET Core

Databases & Cloud: SQL, NoSQL, AWS, Azure, GCP, Oracle, Databricks, Snowflake, Bigquery

Business Intelligence: Tableau, Power BI, Qlikview, Alteryx

Tools: Git, JIRA, Confluence, RESTful APIs, MS Office (Word, PowerPoint, Excel, Access)

Languages: Python (Pandas, Numpy, Scipy, Matplotlib, sklearn, TensorFlow, PyTorch, Keras, MATLAB),
SQL (Joins, CTEs, Stored Procedures, Triggers), C++, HTML, CSS, JavaScript

PROJECTS/PUBLICATIONS:

Machine Learning Algorithms for Intrusion Detection, Springer SpacSec 2021

Aug 2022

- Classified normal and anomalous as well as identify unknown attacks on IoT devices using the famous UNSW-NB15 Dataset.
- Applied 17 **Supervised Algorithms** like K-NN, Naive Bayes, SVM, Decision Trees, Random Forests, Gradient Boosting, etc. by creating 9 new features that helped achieve test accuracy of 88.7% and a FAR of 0.014.

Amazon Products Browse Node Classification

- Bagged 41st position out of 3200+ participating teams in the Amazon ML Challenge by leveraging **LLMs like BERT** after some preprocessing on 9900+ classes to achieve a macro averaged F1 score of 0.65.

Real-Time Stock Market Data Pipeline

- Engineered a scalable data streaming pipeline using **Apache Kafka, Python, and AWS (EC2, S3, Glue, Athena)** to process and analyze real-time stock market data, enabling immediate querying capabilities through SQL.

EDUCATION:

Rutgers University, New Brunswick: Master of Science – Computer Science (ML and Statistics)

May 2024 | CGPA: 3.9/4

Manipal University Jaipur: Bachelor of Engineering – Computer Science

May 2022 | CGPA: 3.6/4

CERTIFICATION:

Microsoft Azure Data Engineer Associate: Data Warehouse, Data Lakes, Data Factory, Databricks, CI/CD, ETL Pipelines

Udemy Complete Generative AI Course with Langchain and Hugging Face
